- Metal construction
- Replaces plastic original on 1986-1988 models

Important Installation Note: This is a reproduction of the 1989-1996 lock bezel. When used on 1986-1988 models, a slight modification is required. The hole on the deck of the 1986-1988 is 2mm smaller than 1989-1996, therefore you need to enlarge the deck lid hole 2mm in order for the bezel to lay flat.

---------	---	---------

The 1984-1985 Corvette used an additional seal that was placed in the rear spindle knuckle to keep dirt, grit and water out and off of the bearing/seal assembly. This seal can be installed in all C4 1984-1996 rear suspension spindle knuckles to keep the bearing and seals clean. The seal fits in the spindle knuckle and the yoke is machined in the same manner whether you have a 1984 or 1996 suspension assembly. There is less chance of water or dirt entering the area between the spindle bearing yoke splines and the bearings seal area.

Old window seals are not only an eyesore for any Corvette; they are also a threat to your door internals. Your window seals are under a constant barrage from the elements causing them to shrink, crack and chip over time leaving your valuable internal door components and electronics exposed and prone to premature failure. Door window seals are one of the most important and affordable, yet often over looked seals on your Corvette.

If a customer requests cancellation of an order after the order is in processing in our warehouse, or after the goods have actually been dispatched from the warehouse to the shipping department, Corvette Depot reserves the right to charge a restocking fee of up to 30% of the value of the goods, deducted

Member emails are automatically subscribed upon checkout to company newsletters with an option to opt out at any time.

(xxi) Pricing Policy: Due to the fluctuation in exchange rate on a daily basis, Corvette Depot cannot provide a refund for any decreases in pricing on our website. Pricing of all parts includes conversion into Canadian dollars based on the daily exchange rate. Corvette Depot reserves the right to cancel any orders due to pricing errors on any products.

(xxii) Electrical Item Warranty: Corvette Depot does not allow any refunds on electrical items, they can only be returned for exchange. All items that fall under this policy will be outlined in a disclaimer below the product name on the shopping cart page along with the product invoice. The reason that there are no returns on electrical items is that too many people try to take advantage of the return system. Instead of using proper diagnostic procedures, some people resort to trial-and-error parts swapping when they don't know how else to fix an electrical problem. When parts they have installed do not fix their problem, they want to return them and try something else. Electrical parts are easily damaged by improper installation or testing. Because electronics are very sensitive to voltage overloads, it does not take much of a voltage spike to ruin a component. Unplugging a wiring connector while the key is still on can create a momentary voltage surge of hundreds of volts. Crossing up the wrong wires or using the wrong test procedures can also damage sensitive electronics. We have no way of knowing whether or not the part has been used or damaged. Because of these risks there are no returns on electrical components. This policy will protect the next customer who might get a bad part that had been returned. Electrical items that are found to be defective within the first 30 days after receipt of product will be covered by our warranty policy. There are no exceptions to this policy.
